Our world is changing elegantly reserved. Durability against weather conditions and intense UV radiation, whilst being both expressive and the new architectural understanding for nature and humanity – environmentally sustainable, super.

That is precisely how this selection of 40 dynamic super durable powder coatings came to life; with a passion for architecture and design, guided by a clear vision on the changes happening changing dynamics. Global issues, technological evolutions and digitalization of the real world are all.

Our world is changing.

The age of movement and motion is bringing an unprecedented energy to our world.

In the quest for new possibilities for a brighter future, new generations are adapting to the changing dynamics. Global issues, technological evolutions and digitalization of the real world are all factors which contribute to new found aesthetics. New perspectives, augmented reality, digitalized changing dynamics. Global issues, technological evolutions and digitalization of the real world are all the new architectural understanding for nature and humanity – environmentally sustainable, super durable. ICONICA is a selection from the range of Alesta® SuperDurable powder coatings and represents factors which contribute to new found aesthetics. New perspectives, augmented reality, digitalized changing dynamics. Global issues, technological evolutions and digitalization of the real world are all the new architectural understanding for nature and humanity – environmentally sustainable, super durable. Nature is the core element in the development of a better future. Nature provides the answer to the need for balance and serenity through the use of soft whites and subtle bronzes, highlighted by fresh greens. Minimalism, bio-mimicry and randomness define the shapes.
ENERGY MANIFESTO

Digital shapes, colours and inspiration brought to life thanks to technological developments with the use of energetic shades of red, blue and orange. Shapes are well defined by colour blocks and the innovative use of surface cut outs and other volumetric anomalies.
Citizens of the world today transcend traditional frontiers and seek new vanishing points in design and in life. Braided and woven cladding and textures reflect the craftsmanship aspired to by all cultures. Warm oxidized greens mixed with reds and coppers.

Citizens of the world today transcend traditional frontiers and seek new vanishing points in design and in life. Braided and woven cladding and textures reflect the craftsmanship aspired to by all cultures. Warm oxidized greens mixed with reds and coppers.

Cultivated aesthetics pay tribute to success, power and glory by staging a spectacular and sparkling display. Glamorous black, silver and gold breathe classic grandeur onto origami inspired cladding, adding a layer of precious metal for every design. A dramatic and theatric display. Glamorous black, silver and gold breathe classic grandeur onto origami inspired cladding, adding a layer of precious metal for every design.
